

The chart displays the 'TXT' signal (purple line) and 'Buy Signal' (green dots) and 'Sell Signal' (red dots) from January 2019 to August 2019. The chart includes a light blue grid and a legend in the top right corner.

The 'TXT' signal is a purple line that fluctuates significantly, showing a general upward trend from January to March, followed by a sharp decline in April and May, and then a recovery in June and July. The 'Buy Signal' is represented by green dots, indicating points where the signal is at a local minimum. The 'Sell Signal' is represented by red dots, indicating points where the signal is at a local maximum.

Key features of the chart include:

- Legend:** Located in the top right corner, identifying the 'TXT' signal (purple line), 'Buy Signal' (green dots), and 'Sell Signal' (red dots).
- Grid:** A light blue grid is overlaid on the chart, with vertical lines marking the months from January to August 2019.
- Signal Behavior:** The 'TXT' signal starts at a low point in January, rises to a peak in March, falls to a low point in May, and then rises again in July. The 'Buy Signal' and 'Sell Signal' are scattered throughout the chart, indicating specific points of interest.
